

Distribution of gene expression
in unique cell types at 10hpf

One-sided KS-test p-value: 0.00225

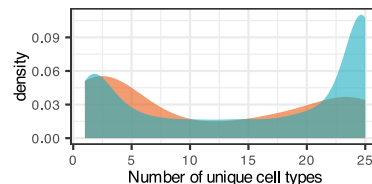

Distribution of gene expression in unique cell types at 12hpf

One-sided KS-test p-value: 0.000222

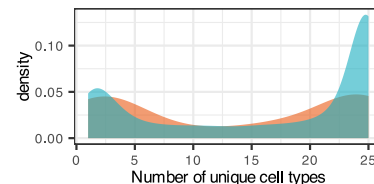

Distribution of gene expression
in unique cell types at 14hpf

One-sided KS-test p-value: 3.56e-05

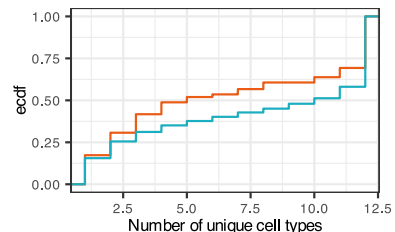

Distribution of gene expression
in unique cell types at 16hpf

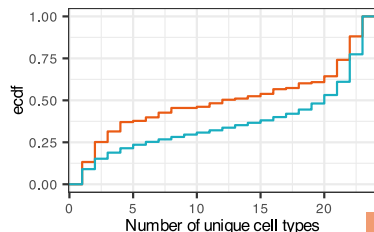

One-sided KS-test p-value: 0.00283

Distribution of gene expression in unique cell types at 19hpf

One-sided KS-test p-value: 7.44e-06

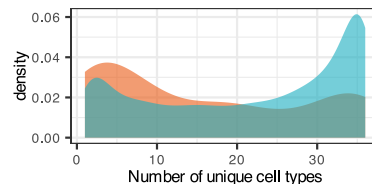

Distribution of gene expression in unique cell types at 24hpf

One-sided KS-test p-value: 0.00017

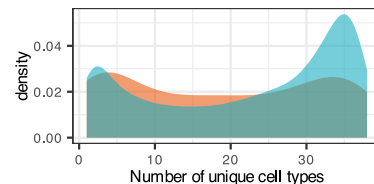

Distribution of gene expression
in unique cell types at 3dpf

One-sided KS-test p-value: 5.4e-09

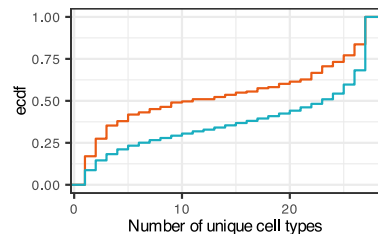

Distribution of gene expression
in unique cell types at 5dpf

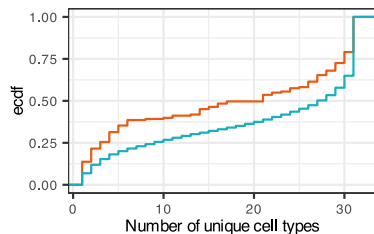

One-sided KS-test p-value: 0.000917
